Short Description

These wall cabinets are made of 100% tempered glass and stainless steel hinges, screws and copper handles. They are mounted on the wall for decoration purposes. They have unique, beautiful patterns and colors, they also create more storage areas in the room. They come in different sizes and they can be used in bathrooms, living rooms, bedrooms, kitchen, saunas, hotels, bars and restaurants.

Description

A great house cannot be complete without some storage items. Storage is very important in kitchens and living rooms since it keeps the room tidy. Cabinets are some of the storage items that will be needed to make a house complete. A side from storage options that glass wall cabinets provide, they are also the key to creating a contemporary interior design.
